ADHESIVES

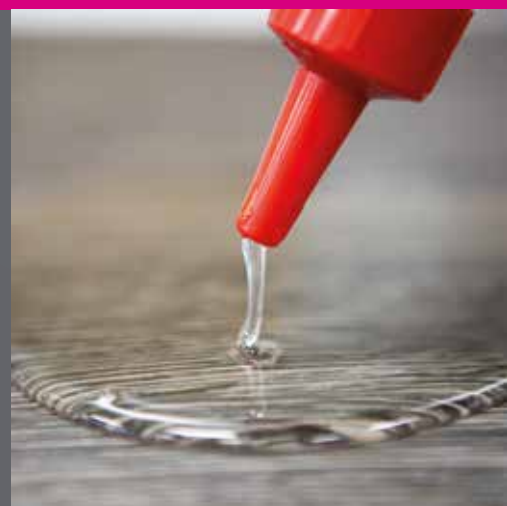

ADHESIVES FOR PLAYGROUNDS

PU - 1K

Rubber floor has become a much demanded solution in recent years. Safety against falls that this material offers makes it ideal for children's playground, gyms and other sport facilities. Furthermore it is more environmentally friendly due to being made of recycled tires.

For this application it is necessary to utilize adhesives with a great chemical resistance and good moisturizing properties.

Neoflex adhesives for rubber agglomerate meet these requirements, reaching the highest quality standards in the market.

PU ADHESIVES - 1K

Playgrounds

NEOPUR M 2905 is our most recommended adhesive thanks to its wide range of applications.

One-component polyurethane adhesives are systems which contain 100% solids, solvent-free, halogens and formaldehyde. These adhesives harden through reticulation with the humidity present in the air and substrates.

One-component systems offer the following advantages:

- Adhesion to a wide variety of materials.
- Easy to handle.
- Once hardened, they have good resistance to extreme temperatures and moisture.
- High elasticity.

NEOPUR M					PRIMER	
	2905	3350	3389	2859	2947	2919
Viscosity (mPas/20°C)	2.000 ± 1.000	2.000 ± 1.000	2.750 ± 1.250	3.500 ± 1.500	Liquid	Liquid
Setting time (Hours/20°C)	24/48	24/48	24/48	24/48	-	-
Consumption	11 - 15 %	11 - 15 %	6 - 20 %	6 - 20 %	24/48	24/48
Application	Aglomerated SBR or EPDM				Floors treatment and moisture-proof treatment.	Repair and maintenance of floors.
			Used for molds and hot presses.	Aliphatic
